

Wascomat Heavy-Duty EXSM Washers for OPL

220-300 G-force extraction for speed, performance, & BIG savings.

Built to last, Wascomat's EXSM washers are designed for efficiency and superior wash results. Precision-engineering reduces downtime and improves machine reliability. The high G-force extraction cuts drying time resulting in lower utility costs and higher laundry room productivity.

Perfect for hotels, motels, hospitals, nursing homes, beauty salons, fitness clubs, and other facilities.

EXSM665 (65 lb.)

EXSM680 (80 lb.)

EXSM6135 (135 lb.)

Features and benefits:

- Heavy-duty construction for demanding applications.
- Efficient frequency-controlled motor reduces peak power demand by 50% for big energy savings.
- Optional steam injection for precise control of water temperature.
- Built-in connection for automatic liquid injector.
 - Compass Control[®] provides 5 liquid chemical signals.
 - Clarus Control[®] provides 4 liquid chemical signals, expandable to 8 signals.
- Standard 4-compartment supply dispenser for liquid or powder supplies on EXSM665 and EXSM680 models.
- Optional 5-compartment supply dispenser for liquids or powders available on EXSM6135 (side mount).
- Built-in diagnostics and statistics.

Available with two types of program controls.

Compass Control[®] is available on the 65 and 80 lb. models:

- Customize wash programs to raise efficiencies and lower costs.
- Select display languages.
- Reduce operator error by displaying only the programs you use.

Clarus Control[®] is available on the 65, 80, and 135 lb. models:

- Fully programmable microprocessor.
- All wash parameters can be programmed and customized.
- Programming from keypad or download via memory card.

Available in 65, 80, and 135 lb. capacities.

Dramatically different.

It's time to talk to Wascomat. With more than 100 years of experience behind every washer and dryer, we are renowned for superior products and exceptional service; our dealers are experts and know how to make your laundry a success; and parts and technical support are available for virtually every machine ever sold in the United States and Canada.

When you buy Wascomat, you are truly investing in the future of your business.

Refer installation and servicing to qualified, licensed personnel. Always read installation and operating manuals and consult local codes before installation. Protect machines with properly rated, inverse-time, common-trip, industrial-type circuit breakers ONLY. Warranty void if not properly installed. Solid-mount machines require a custom concrete foundation, and are not suitable for upper-floor or above-basement installations. Contact Wascomat for more information and for availability of machines for electric services not listed. Specifications subject to change without notice. Wascomat assumes no responsibility for errors or omissions in this information.

SUPERIOR WASH CYCLE CONTROLS

With wash formulas tailored to your operation, there's no guessing on your part. Every load of wash is handled in precisely the correct way for the highest quality results and efficiency.

Clarus Control®

Fully programmable, menu-driven Clarus Control® allows entry and storage of up to 192 custom wash programs. Reads and writes programs on a SmartCard for secure backup (included). Wash programs can be password protected. Secure operating mode prevents unauthorized use. Optional Wash Program Manager software and SmartCard docking unit are used to create wash programs on your computer. Available on all models.

Compass Control®

Compass Control lets you choose the program set-up that best suits your needs. Modify standard wash programs to find the perfect balance between low water and energy consumption while optimizing wash results and processing time. You can also create your own programs. Multilingual. Available on EXSM665 and EXSM680 models.
