

WASCOMAT "EX" SOFT-MOUNT, HIGH-EXTRACT WASHER MODELS ARE BUILT TO WORK FOR A GENERATION

Four-compartment supply box for liquid or powder detergents, bleach and fabric softener, with provision to connect a liquid supply injector. EX6100, EX6200 and EX6250 models are available with optional five-compartment supply box.

State-of-the-art, user-friendly controls feature large, bright display and simple step-by-step instructions. Available in multiple languages.

UPC compliant venting eliminates the need for external backflow prevention.

Triple-seal, extra heavy-duty bearing and seal system for long life.

High-grade stainless steel inner and outer drums.

State-of-the-art, reliable riveted frame design for a generation of use.

Frequency-controlled motor for optimum wash/extract speeds.

Sturdy cast door and hinges designed for heavy use.

Large door opening for easy loading and unloading.

Ultra-safe, durable door safety lock and handle.

Soft-mount steel springs and shock absorbers for smooth operation.

Refer installation and servicing to qualified personnel. Always consult local codes before installation. Protect machines with properly rated, inverse-time, common-trip, industrial-type circuit breakers ONLY. Contact Wascomat for more information and for availability of machines for electric services not listed. Specifications subject to change without notice. Wascomat assumes no responsibility for errors or omissions in this information. Consult a qualified engineer to determine suitability for other than ground floor installations.

Easy-to-use Wascomat EX washers with Clarus® Control

Clarus® Control

Fully programmable, automatic, microprocessor control with nine standard wash programs and the ability to create over 192 individual custom wash programs. Simple to program on a large display. Programmable memory cards can be used to start or install programs created on your computer or on the control panel.

Selecta20® Control

Microprocessor control with 20 different built-in wash programs for hotels, nursing homes, health care and diaper services. Pushbutton simplicity requires no special operator skills. Just select your program and press START – that's all there is to it! Fully automatic!

Frequency Controlled Motor Benefits

- Wash and extract speed selection.
- Energy efficient - reduces power demand by 50%.
- Accelerates and decelerates gently for long washer and motor life and energy savings.
